Construction

Grid	10 units from dot centre to dot centre.
Dot	8 units across, 80% of the pitch. The gap is 2 units.
House	7 × 7 cells: a one-dot peak, a stepped roof, eaves one dot wider each side, and a door one dot wide and two tall.
Letters	Solid blocks 15 cells tall and 11 wide (13 for the M), traced to their outline, so every stroke reads as two lines of dots. Letters sit 3 cells apart.
Stacked	The house at 3.3 × the wordmark's scale, centred, 7.7 wordmark cells above it.
Horizontal	The house as tall as the letters, 6 cells from the H.

Clear space and size

Keep at least one fifth of the logo's height clear on every side. The white-on-blue files already include this margin.

LOCKUP	SCREEN	PRINT
Stacked	200 px wide	35 mm wide
Horizontal	240 px wide	40 mm wide
Wordmark	240 px wide	40 mm wide
House mark	24 px	8 mm

Below these sizes the dots in the letters blur into lines. Use the favicon files for 16 px rather than shrinking the mark.
